MANAGEMENT DISCUSSION AND ANALYSIS

INDUSTRY STRUCTURE AND DEVELOPMENT

The world economy showed a weakening trend, with weak aggregate demand, falling commodity prices and increasing volatility in the financial markets. Most emerging economies have been showing slower economic growth. India has fortunately been able to buck this trend, thanks largely to the country's domestic demand and comparatively limited reliance on the external sector for growth. The world economy's revised growth rate was at 2.4% as compared to 3.6% in the previous year and is projected to grow by 2.9% in 2016.

The Asian region is expected to grow at a steady 5.4 percent in 2015–16 and will continue to remain the global growth leader. Asia's growth should benefit from relatively strong labour markets and growth in disposable income along with the ongoing recovery in major developed economies. Low inflation, increased public investment, revival of private investment and increased consumption (both urban and rural) were the major factors influencing India's GDP growth which was at 7.4%. The continuing tightening measures by the Reserve Bank of India to combat inflation, led to higher cost of funds which adversely affected India's industrial growth. The value of the rupee stabilized vis-à-vis other international currencies during the later half of the fiscal year as a result of various measures taken by the Government and Reserve Bank of India

OPPURTUNITIES AND THREATS**(a) Opportunities**

The global economy has remained subdued in the fiscal year 2015 – 16 but it is expected to improve more in the coming financial year under the backdrop of new reforms and macro-economic developments. Such a scenario will give our Company the opportunity to increase our stakeholder values and gain their trust. The Company has already started taking

initiatives to enhance investor relations. It has become focused on efficiency and planning to diversify its business into other areas.

(b) Threats

The constant fluctuations in the stock market and excessive competition from fellow competitors are some of the hindrances affecting our business.

OUTLOOK, RISK AND CONCERNS

Your Company has been making use of available opportunities in the market for trading of cotton/fabrics and spread its business in other lucrative businesses too for increasing its profitability and size of business. The Company successfully listed its equity shares with BSE in August 2015 which strengthened the credibility of the company among the stakeholders.

The underlying strength of Indian consumption and demand, continues to remain robust. The country's fabric and clothing markets remain a favorite of global consumers. The performance of your Company is closely linked to those of the fashion and clothing markets. The growth tendencies for 2016-17 are expected to be mostly reflective of the developments in these areas. Your Company is cautiously optimistic in the current scenario and will focus on a well adjusted expansion of business in other related business, resourceful cost management and risk containment measures in order to sustain profitability.

The company is a trading company deals in trading of cotton/ fabrics. However company also invests its funds in capital and debt market and creates an additional source of income in form of dividends and returns receivables on investment made and held by it in other Companies and the capital appreciation of investments. Any adverse financial impact on the operation / business of the invested companies may impact the revenues of the company and also results in diminution in the value of investments.

FINANCIAL PERFORMANCE AND ACCOUNTING TREATMENT

Gross revenues for this financial year comes to Rs. 3,00,95,920.00 as against Rs. 3,86,60,682 in the previous year. Profit before depreciation and taxation was Rs. 1,23,117.68 against Rs. 5,16,796.83 in the previous year. After providing for depreciation and taxation the net profit of the Company for the year under review was placed at Rs. 63,339.68 as compared to Rs. 3,36,004.83 in the previous year. Due to unfavorable market conditions the company's turnover in terms of value has reduced at a rate of 22.15% during the year under review and as a result profit after tax has also marginalised. However the Company is looking forward to grasp the available opportunities and focusing on permitted avenues. The uncertain state of the global economy however remains a cause of concern.

“Annexure B” to the Independent Auditor’s Report of even date on the Financial Statements of Concrete Credit Limited

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

We have audited the internal financial controls over financial reporting of **Concrete Credit Limited (“the Company”)** as of **March 31, 2016 in conjunction with our audit of the financial** statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The Company’s management is responsible for establishing and maintaining internal financial controls based on “the

internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India”.

These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors’ Responsibility

Our responsibility is to express an opinion on the Company’s internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company’s assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2016, based on , “the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India”.
